NURSING

Dear High School Guidance Counselors:

Fort Hays State University Department of Nursing proudly presents *The Nightingale Experience* to be held on July 10th and 11th, 2019. This is a two-day event for 2019-2020 sophomores, juniors, and seniors. This exciting experience is designed for those who have expressed an interest in nursing, but would also benefit anyone undecided about their career plans.

The event begins at 10 am on **Wednesday, July 10th** with a Nursing Preview day, and ends at 3:30 pm on **Thursday, July 11th**. On day one, participants and his or her guardians are invited to join us for a Nursing Preview Day where they will learn more about the nursing program and visit our brand new, state-of-the-art simulation lab. Guardians may leave at 1 pm, and camp participants will continue to participate in various simulation lab experiences—including ICU, ER, and OB. Later, we will play games and complete activities related to nursing and team building. That evening, participants stay at a residence hall overnight as they prepare for an unforgettable nursing experience. On day two, the participants will be transported to HaysMed, where they get a glimpse of a day in the life of a nurse! Room and board, materials, activities, and attendance at HaysMed are all included in the \$100 registration fee.

It's easy to register! Simply follow these steps:

- 1) Go to <http://www.fhsu.edu/nursing/>
- 2) Click on **Nightingale Experience** and complete the application by June 1, 2019.
Early application is *highly* encouraged due to limited availability!!
- 3) Notification of completed registration and the next steps will be e-mailed to the address provided. Please encourage the students to choose an email address they have access to in the summer and to check their spam folders.

More information regarding this life-changing event can be found on the FHSU website at: www.fhsu.edu, or by contacting Michelle VanDerWege at mlvanderwege@fhsu.edu.

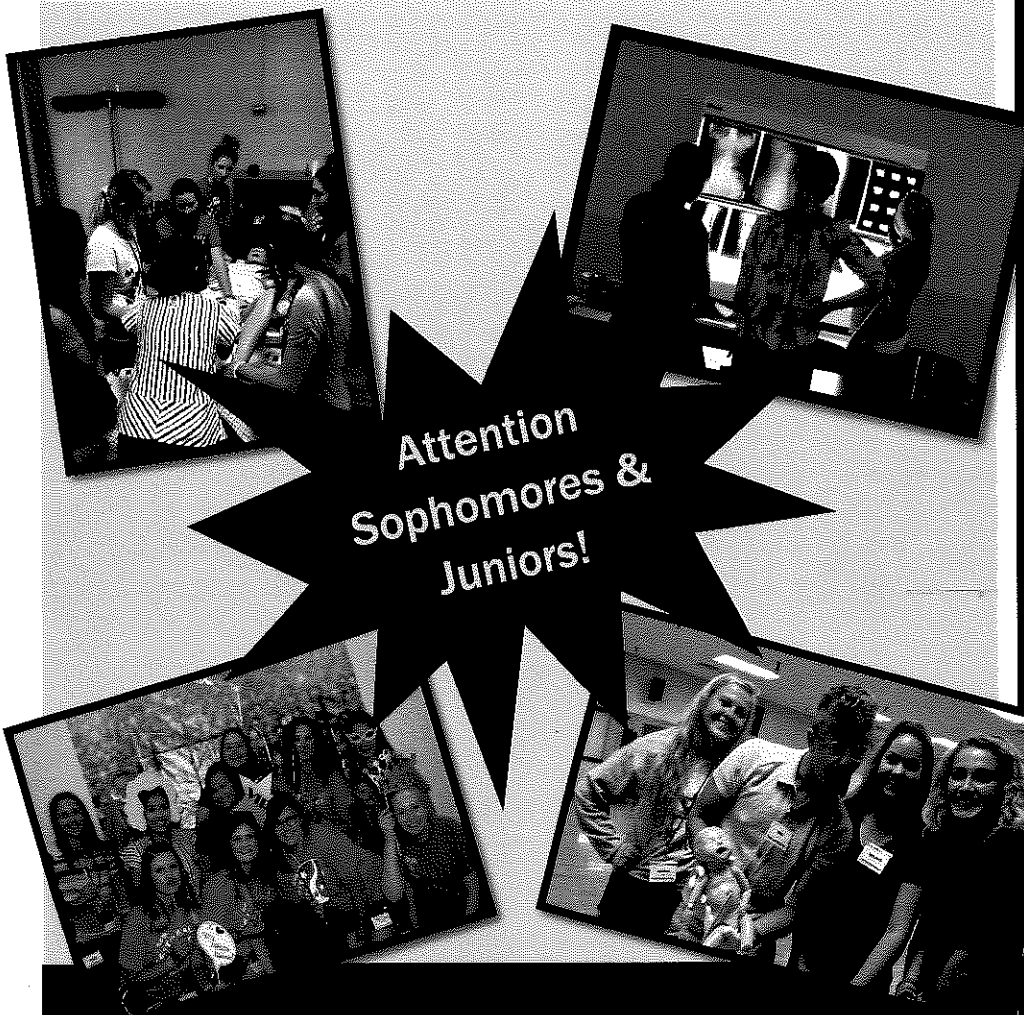

We look forward to hearing from your students soon!

Sincerely,

Michelle Van Der Wege, MSN, APRN
