GAMB-R BLOOD PATHOGENS EXPOSURE CONTROL

GAMB-R

- 1). All employees exhibiting blood spills shall be taken to see the school nurse as soon as a staff member realizes an injury has occurred.
- 2). If the school nurse is not in the building, the employee shall notify their immediate supervisor.
- 3). The administration shall develop a bloodborne pathogens exposure control plan in accordance with OSHA Standard 29 CFR 1910.1030.
