

JGC STUDENT HEALTH SERVICES

JGC

The school district will endeavor to maintain a healthful environment for each student in school attendance and in school sponsored activities.

All students participating in KSHSAA activities are required to provide the building principal with evidence of a physical examination upon request.

JGC-R STUDENT HEALTH SERVICES

JGC-R

The building principal may secure proof of physical examination for all students engaged in activities covered by board policy.

Notice will be given to every parent, either by letter or through the local newspaper of the dates, times and places for the physical examinations at least one week prior to the examinations if given under the sponsorship of the district.

Every building principal will cooperate with local, county and state health agencies in disseminating materials designed to encourage students and their parents to maintain a high standard of health.

The district nurse will be responsible for the general conduct of such health programs which are deemed advisable by the board.
