**JGHA-R     FREE OR REDUCED LUNCHES**

**JGHA-R**

The necessary forms, rules and regulations governing this program will be provided by the superintendent or the appropriate building principal to any student and his/her parents to determine their eligibility to receive free or reduced lunches.

In order to determine which students are eligible for free or reduced lunches, the lunch supervisor together with the superintendent and appropriate building principals will design a form to be sent to every parent in August of each year in conformance with state and federal requirements for free or reduced lunch eligibility.

Those students qualifying for free or reduced lunches will be notified by the building principal in whose lunch program the student will participate.

A conscious effort will be made by each school participating in the program to see that such qualified students are not singled out and discriminated against because they receive free or reduced lunches.

**Collection Procedure at the Beloit Elementary School**

Students go to the school office during the day. At such times, they are credited with payments towards full price, reduced, or free meals.

Collection Procedure at the Beloit Jr.-Sr. High School

The secretary that monitors the lunch line keeps a tally of the number of adults, "full price" student meals, "free" student meals, and "reduced-price" student meals eaten each day. At that time students and adults receive credit for payments or debits for meals eaten.
